

Garphyttan, 2025-01-22

REACH Compliance Declaration (EU) Directive 1907/2006

This information is provided to outline how Suzuki Garphyttan AB ensures compliance with the REACH legislation.

- Suzuki Garphyttan AB within EU ensures that relevant substances used in our production are registered by our suppliers.
- Suzuki Garphyttan AB is in close contact with our suppliers to assure future deliveries. We ensure a continued and undisturbed supply of raw materials for our products and avoidance of disturbance to our customers. Our products are considered as special preparation under REACH. The substances this preparation consists of (iron and the alloying elements) are not produced at our plant and are therefore registered by our suppliers.
- As a downstream user according to REACH. Suzuki Garphyttan AB constantly monitoring the chemicals used in the production through our chemical management system. Each time EHCA's Candidate list (SVHC) is updated so is the company's chemical management system. Therefore we are able to follow the obligations under REACH regulation thoroughly.

In the event of any changes concerning obligations of REACH, we will keep our customers updated with mandatory information regarding the articles we supply.

Yours Sincerely,

Henrik Sätterbacka
Site Manager
